Two Ways to Scan the Asset Management Software Marketplace...

THE LONG & HARD WAY

THE QUICK & EASY WAY

1. Search for asset management software

1 - Visit www.comparesoft.com

2. Open as many asset management software websites as possible

3. Fill in lots of 'contact us' forms

Select your requirements (asset type, asset details, asset value and industry) to see your customised, unbiased shortlist

4 - Get email responses to your enquiries

5 - Get follow up calls to arrange sales and product meetings

6 - Arrange meetings to see standard demos and get further information
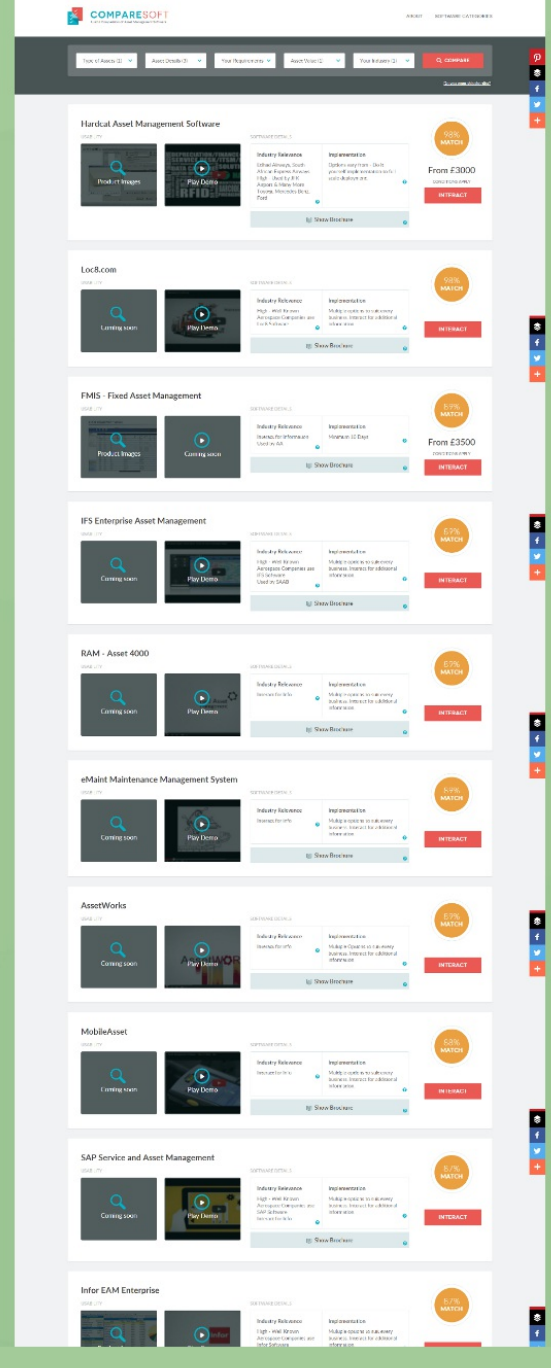

On a single page you can: view demos, look at product images, get case studies, look at brochures and get an idea of pricing

7 - Get proposals and pricing from all the vendors
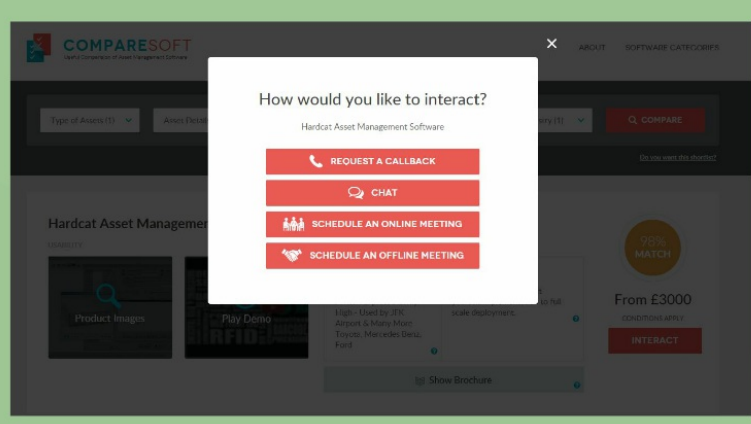

You can quickly interact with as many vendors as you like via email, call or online and offline meetings

8 - Create a spreadsheet to compare different asset management software options
